Citizens
Madison Area Technical College District

The Comprehensive Annual Financial Report (CAFR) of Madison Area Technical College District (the District or Madison College) for the fiscal years ended June 30, 2017 and 2016, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the presented data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

This report is consistent with legal reporting requirements of the State of Wisconsin, and in our opinion was prepared in conformity with generally accepted accounting principles applied on a basis consistent with the preceding year. In addition to meeting legal reporting requirements, this report is intended to present a comprehensive summary of the significant financial information of the District in a readable format to meet the varying needs of the District's citizens, taxpayers, students, employees, financial institutions, intergovernmental agencies and the State of Wisconsin Technical College System.

The CAFR is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the College's board members and an organization chart. The financial section includes the management's discussion and analysis, the report of independent certified public accountants, the basic financial statements, notes to financial statements, required supplemental information, and additional financial information. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The single audit section includes the schedules of federal and state assistance, and the auditor's reports on the internal control structure and compliance with applicable laws and regulations.

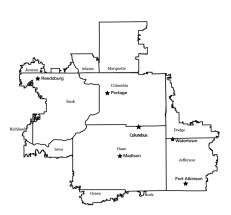

Madison College is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the Single Audit Act Amendments of 1996, the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the State of Wisconsin Department of Administration publication, State Single Audit Guidelines. Information related to the requirements and compliance with this single audit can be found in the single audit section of this report.

Generally Accepted Accounting Principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. Madison College's MD&A can be found immediately following the independent auditor's report.

Profile of the Madison College District

Madison Area Technical College was first chartered as the Madison Industrial School in 1912, enrolling 63 students in its first classes. In 1917, the federal Smith-Hughes Act provided additional funding for vocational education, and the Madison Industrial School became known as the School of Vocational Education. Attendance continued to grow as the result of state legislation enacted in 1933 requiring compulsory education until the age of eighteen, which served to increase the number of students enrolled in high school and opened space at the vocational schools for more adult students. These changes in focus resulted in another name change in 1937 to the Madison Vocational and Adult School. Increasing state control and budgetary difficulties led to legislation, enacted in 1965, requiring formation of vocational districts by 1970. The Area Vocational, Technical and Adult Education District No. 4 was legally organized on July 1, 1967, under the provisions of Chapter 292, Laws of Wisconsin 1965. Its name was changed in 1992 to Madison Area Vocational, Technical and Adult Education District; and in 1994 to Madison Area Technical College District.

The District is composed of almost all of five counties (Dane, Columbia, Jefferson, Marquette and Sauk) and parts of seven other counties (Adams, Dodge, Green, Iowa, Juneau, Richland and Rock). There are 225 municipalities and 40 public school districts within the District's boundaries. The District contains 4,414 square miles, an equalized valuation for fiscal year 2016-17 of \$78,612,374,268, and an estimated District population of 775,6373. The District operates campuses in six cities: Columbus, Fort Atkinson, Madison, Portage, Reedsburg and Watertown. Educational offerings are also provided at many other locations throughout the District.

Governance

The governing body of Madison Area Technical College District is the District Board, which consists of nine members. The members are appointed to staggered, three-year terms by the county board chairpersons of the twelve counties in the District who meet once a year to appoint three members. The District Board membership categories include two employers, two employees, three additional members, one school district administrator and one elected official who holds a state or local office. The District Board powers, which include the authority to levy property taxes and borrow monies, are established under the provisions of Chapter 38 of the Wisconsin Statutes. Current members of the Madison College District Board are shown on page 11.

Services

Madison College provides real-world smart, work-ready education through a comprehensive curriculum of technical, liberal arts and sciences, adult basic education and life enrichment studies and activities, as well as customized employee training. The college offers associate degrees, vocational diplomas and certificates, and non-degree courses in more than 140 programs of study. These offerings include 50 career and technical associate degrees, 3 college transfer associate degrees, 5 two-year technical diplomas, 29 one-year technical diplomas, 7 less-than-one-year technical diplomas, and 19 apprenticeship programs, as well as 70 certificates. Madison College also offers numerous other types of academic offerings such as basic skills education, customized training for specific businesses and adult continuing education.

In addition to these educational opportunities, Madison College is able to sponsor and develop a wide variety of training opportunities through institutes, seminars and workshops with cooperation from business and industry; public and private agencies; community groups, and other institutions of learning. Community service classes are also offered, which are non-credit, personal development, enrichment or recreational courses.

Madison College promotes a collaborative environment in which to provide better opportunities for individuals and to encourage economic development in the communities we serve. Our ability to respond to an ever changing environment allows individuals and businesses to continue to cultivate a good quality of life and economic sustainability.

The training provided by Madison College is essential for a new workforce that is technically prepared, but also adaptable, willing and able to learn and grow as industries and jobs change. What we offer and how we offer it is in constant flux...always evolving to meet the needs of a more complex student, employer and stakeholder market.

Strategic Plan

Mission

Madison College provides open access to quality higher education that fosters lifelong learning and success within our communities.

Vision

The leader in accessible, affordable higher education that meets the evolving needs of our diverse communities.

Value

Excellence, respect, commitment to students and diverse communities, and making higher education available to all.

Strategic Directives

- Focus on Successful Outcomes for Students
- Ensure our Sustainability
- Support our Faculty and Staff
- Address Student Preparedness
- Align with Community Needs
- Improve Recruitment and Strategic Outreach

Factors Affecting Financial Condition

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy

Three local economic factors impacting Madison College are: 1) the unemployment rate, 2) inflation, and 3) property values.

The Madison area continues to fare better than the national economy in terms of unemployment. According to the Bureau of Labor Statistics (BLS), the adjusted Madison Metropolitan Area's unemployment rate (not seasonally adjusted) decreased from 3.5% in February 2016 to 3.3% in February 2017. In comparison, the Wisconsin and U.S. rates for February 2017 were 4.9% and 3.7% respectively.

The overall Midwest Region consumer price index rose 1.9% from March 2016 to March 2017, compared to a national increase of 2.4% over the same period.

The Wisconsin REALTORS® Association reported in April 2017 that existing Wisconsin home sales increased in March 2017 by 8.4% over March 2016, with prices increasing by 5.5%. In the 12 county South Central Wisconsin region, existing home sales increased 4.3% over the 12 months ending March 2017. During that time, the median sale price in the region increased \$13,500 or 7.3%. Housing values are set for tax purposes in January of each year, and those values reported to taxing authorities the following fall are used for computing taxes, which are billed to property owners in December.

Legislative Climate

A new session of the legislature began in January 2017. The legislature completed work on the 2017-19 budget in September of 2017. While elected officials from one-party hold majorities in both houses of the legislature and the governor's office, there were major disagreements over certain elements of the two-year spending plan that caused the budget to be signed into law about three months late.

For technical college districts, the resulting budget was primarily a status quo budget as it relates to funding from the state and funding authority via the property tax levy. The budget did provide additional financial aid for technical college students – increasing funding from \$19.3 million to \$22.5 million in FY2017-18 and to \$22.9 million in FY2018-19.

In March 2017, the WTCS State Board approved a 1.4% increase in tuition for students in degree credit programs in 2017-18.

Madison College and the Wisconsin Technical College System continue to focus on career and technical education at the secondary and postsecondary levels, and to work with legislative leaders to advance education initiatives.

Institutional Successes

A few of the many successes Madison College and its students have achieved during the last year:

- The most recent Graduate Employment Report, which surveys graduates six months after graduation, indicates that 93 percent of Madison College graduates find jobs within six months of graduation. Of those, over 70 percent are employed within the district and over 88 percent are employed within the state of Wisconsin. The average monthly salary for a Madison College graduate in a position related to their degree is \$3,213.
- Madison College was awarded a \$184,000 grant from the U.S. Department of Education from the Undergraduate International Studies and Foreign Language (UISFL) program to infuse international learning into the student educational experience at the College. This grant will expand study abroad opportunities, increase the number of internationalized courses, establish language immersion programs in Chinese and Arabic languages and establish a new partnership with UW-Madison to expand dual credit opportunities allowing students to enroll in and gain UW-Madison credit in an array of global studies and language courses while enrolled at Madison College

 Graduates from Madison College programs continue to perform above the national average on certification exams:

	Madison College	National
Program	Pass Rate	Pass Rate
Advanced Emergency Medical Technician	87%	70%

Long-term Financial Planning

Technical education in the 21st century is characterized by limited resources, significant outlays for high technology equipment, constantly changing enrollments due to fluctuating unemployment rates, and a changing population which requires different instructional delivery systems. The District Board has responded to these challenges by developing a number of financial policies that emphasize long-term financial stability of the District, address college stakeholders' needs, and maintain financial flexibility.

As part of these policies, Madison College is required to maintain budgetary basis fund balance in the operation funds (General and Special Revenue) at or above the following levels:

- assignments for encumbrances, prepaid items and noncurrent assets equal to the related financial statement items,
- assignment for compensated absences equal to estimated potential annual payouts,
- assignment for state aid fluctuations equal to 10 percent of funds budgeted for general state aid.
- assignments for subsequent year and years, which may not exceed 5 and 10 percent of funds budgeted for general state aid, respectively.
- assignment for operations representing the potential deficit for an unexpected reduction in cash flow, generally between 16.6 and 25 percent of the District's operational budget.

Current plans and long-term projections predict the continued compliance with these Board guidelines.

The Board also requires a capital budget that meets the capital needs of the District. Annually, the District prepares a three-year facilities plan for Board approval. During Fiscal Year 2017-18, Madison College plans to borrow \$25.4 million for capital projects.

Madison College's Smart Future Building Plan

Over the course of 2008 to early 2009, Madison Area Technical College (Madison College) prepared a Facilities Master Plan for its seven campuses. That inclusive campus planning process regarding the District's facilities was informed by the College's 2007 Academic Plan. This was the first such facilities plan developed for the College since it located its primary facilities at Truax nearly 30 years ago.

In 2010, the College faced a unique challenge with historic enrollment increases, inadequate facilities and a call for more relevant training for the unemployed. Proud of its parsimonious practices in its century of service, the college had not asked voters for increased taxes for new buildings since 1974. On November 2, 2010 the College asked voters in its 12-county district for \$134 million to start implementing its Facilities Master Plan. Voters overwhelming supported the College with almost 60 percent of the vote and agreed to an increase in taxes of \$33 per year on average for a home valued at \$245,000.

Funding from the referendum supported renovations and expansions at the District's four regional campuses, a new Emergency Vehicle Operators Course and supporting facilities, and the creation of new facilities at the Truax campus for health education, protective services, culinary, baking, physical education and recreation management, and advanced manufacturing programs as well as a new library, student achievement center, and career placement center.

Almost all work from the 2010 referendum has been completed, and the College has established a new work team to update the 2009 Facilities Master Plan. The updated plan will be based on the goals of the Academic and Student Services Plans by identifying how Madison College's facilities can host accessible, high quality learning and technical experiences that meet the needs of its ever-evolving students, communities, and area employers. Most elements of this updated Facilities Master Plan will be considered for completion in FY19 and beyond, dependent upon resource availability.

Management Systems and Controls

The District is committed to the development of good management systems and controls. Significant efforts are made to employ qualified personnel. Similarly, systems are conscientiously developed within which District employees can function effectively. In turn, employees provide appropriate levels of supervision and segregation of duties.

Accounting System

In developing and modifying the District's accounting system, consideration is given to the adequacy of internal controls. Internal accounting controls within the District are designed to provide reasonable assurance for safeguarding assets against loss from unauthorized use or disposition; reliability of financial records for preparing financial statements; and accountability for assets.

The Concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary System

The District budget is prepared annually in accordance with the requirements of the Wisconsin Technical College System. These budget requirements include review, public hearing, and passage by the District Board prior to July 1 of each year. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established by fund and function.

Budgets are developed based on strategic priorities, objectives and plans. The budget information is summarized by the budget department and analyzed by administration prior to being submitted to the District Board of Trustees for approval in June. As expenditures occur throughout the year, they are recorded against budgeted amounts and necessary budget adjustments are submitted to the Board of Trustees. Any necessary budget adjustments must be passed by a two-thirds majority by the board of Trustees.

Independent Audit

Madison College board policy and state law require an annual audit of the District's financial statements by an independent certified public accountant. The District has complied with this requirement, and the auditor's opinion is included in this report.

EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Madison Area Technical College District for its comprehensive annual financial report for the fiscal year ended June 30, 2016. This was the twentieth consecutive year that Madison Area Technical College District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENT

We express our appreciation to the dedicated Finance staff for their significant investment of time and resources in the preparation of this report. In addition, we thank Madison College's Board of Trustees for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Respectfully submitted,

Jack E. Daniels III, Ph.D.

MANAGEMENT'S RESPONSIBILITY

Board of Trustees Madison Area Technical College District

The management of Madison College is responsible for the preparation and presentation of the financial statements in this report. This report has been prepared in accordance with generally accepted accounting principles based on our best judgments and giving due consideration to materiality.

Madison College has communicated the requirements for accurate records and accounting to appropriate employees and has developed a system of internal accounting controls designed to provide reasonable assurance for the safeguarding of assets and for the reliability of financial records. This system includes selection and training of qualified personnel, organizational arrangements to provide for an appropriate division of responsibility, communication of standard accounting and internal control policies, and regular meetings on accounting matters.

Annually an independent public accounting firm, which we retain to audit our financial statements, is responsible for expressing an opinion as to whether our financial statements present fairly the financial position, results of operations, and cash flows. The audit includes a review of our internal control structure and a testing of the accounting procedures and financial records.

The Madison College Board of Trustees is composed of concerned and qualified citizens who meet regularly with the independent auditors and management. This Board reviews the audit scope, discusses financial and reporting subjects, and considers management action on these matters. There is full and free access to the Board by the independent auditors.

We believe our policies, internal controls, and review processes provide reasonable assurance that our financial information contains the integrity and objectivity necessary for properly reporting Madison College's transactions.

INDEPENDENT AUDITORS' REPORT

District Board Madison Area Technical College District Madison, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of Madison Area Technical College District, as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Madison Area Technical College District as of June 30, 2017 and 2016, and the respective changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management Discussion and Analysis, Other Postemployment Benefits Plan Information, and Pension Plan Information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Madison Area Technical College District's basic financial statements. The introductory section, individual fund financial statements, the schedule to reconcile budget basis financial statements to basic financial statement, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal and state awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the State Single Audit Guidelines, are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund financial statements, the schedule to reconcile budget basis financial statements to basic financial statements and the schedules of expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section included in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

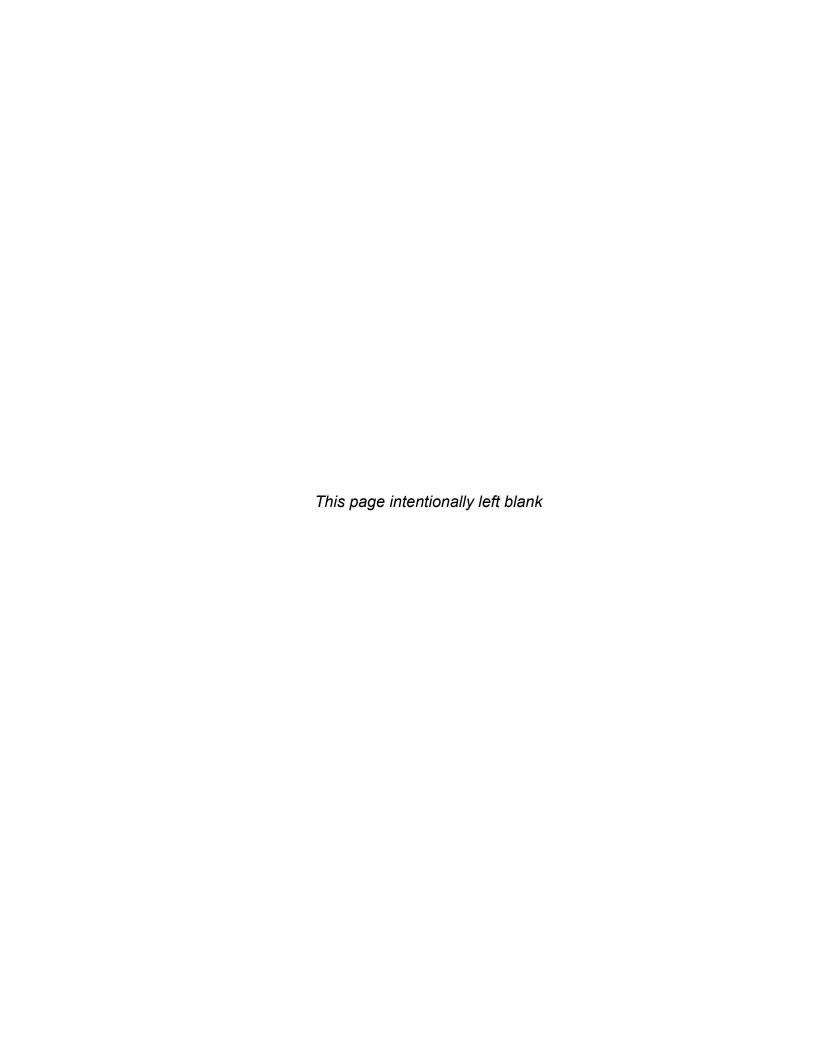

Other Reporting Required by Government Auditing Standards

Clifton Larson Allen LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2017, on our consideration of the Madison Area Technical College District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of Madison Area Technical College District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Madison Area Technical College District's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Milwaukee, Wisconsin December 6, 2017

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)

The purpose of Management's Discussion and Analysis (MD&A) is to provide users of the basic financial statements with a narrative introduction, overview, and analysis of those statements. The MD&A provides summary level financial information; therefore, it should be read in conjunction with the accompanying financial statements.

Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to Madison Area Technical College District's basic financial statements. The statements are comprised of two components: government-wide financial statements and notes to financial statements.

Government-wide financial statements—the government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business.

The statement of net position presents information on all of the District's assets and deferred outflows, and liabilities and deferred inflows, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. This statement is prepared under the accrual basis of accounting whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged.

The statement of revenues, expenses and changes in net position presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or non-operating. As the District receives the majority of its revenues from the taxpayers and other government entities, the District will report an operating deficit or loss. Revenues received from taxpayers (tax levies) and from the state (state appropriations) are considered non-operating revenue, and reduce the operating deficit or loss. The utilization of capital assets is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

The statement of cash flows presents information related to cash inflows and outflows summarized by operating, noncapital, capital, and investing activities. This statement is important in evaluating the District's ability to meet financial obligations as they mature.

The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide financial statements. The notes to financial statements are located after the government-wide financial statements in this report.

Statement of Net Position (condensed version) As of June 30, 2017, 2016, 2015 (dollars in thousands)

Fiscal Year 2017 Compared to 2016

Total assets increased by \$712,000, or less than 1%. This was a combination of an increase in capital assets offset by a decrease in cash and cash equivalents and other assets:

- Cash and cash equivalents decreased by \$4.5 million, or 5.2%, as there was a corresponding increase to net capital assets.
- Net capital assets increased by \$19.2 million or 8.3%. Net capital assets added this fiscal
 year were equipment \$2.4 million, building and land improvements of \$42.3 million and a
 reduction in construction in progress of \$13.1 million. Depreciation expense and
 sale/disposals reduced net capital assets for the year by \$20.0 million and \$153,000
 respectively.
- Other assets decreased by \$14.0 million, or 31.6%, in large part due to the tuition not being approved by the Governor within the budget prior to the yearend. This results in a lower accounts receivable amount.

Total liabilities decreased by \$23.6 million, or 9.4% for the fiscal year:

- Current liabilities decreased \$13.0 million or 19.7%. Unearned program and material fees
 were reduced as a result of the tuition not being approved by the Governor or assessed on
 students' accounts prior to yearend.
- The net pension liability also decreased by \$5.4 million or 50.5% from the previous year. Deferred outflows of resources related to pensions decreased by \$13.4 million, or 23.6%, while the deferred inflows of resources related to pensions decreased by only \$709,000 or 3.1%. See Note E in the Notes to Financial Statement for additional disclosure information.
- Long term liabilities decreased \$5.1 million or 3%. The long-term portion of accrued compensated absences and the general obligation notes payable were both reduced. In addition, the other post-employment benefits have continued to decrease.

Net position increased by \$11.6 million, or 7.9%, for the fiscal year:

- Net investment in capital assets increased \$13.5 million or 14.8%. Many projects were completed within the fiscal year.
- Restricted for debt service increased by \$164,000 or 7.7%. Premiums received on debt issues are included in the debt service fund and accrued interest is excluded from the reserve balance.
- Unrestricted net position decreased by \$2.1 million, or 4.0%, due mainly to the result of current year operating activities and non-operating revenues.

Fiscal Year 2016 Compared to 2015

Total assets decreased by \$15.4 million, or 4.1%, for the fiscal year:

- Cash and cash equivalents decreased by \$11.7 million, or 12.0%, as there was a corresponding increase to net capital assets.
- Net capital assets increased by \$11.4 million or 5.2%. Net capital assets added this fiscal
 year were equipment of \$11.9 million, land of \$524,366, building and land improvements of
 \$339,358 and construction in progress of \$13.8 million. Depreciation expense and
 sale/disposals reduced net capital assets for the year by \$19.3 million and \$600,000
 respectively.
- The Net Pension Asset was reduced to \$0 from \$16.8 million since this year the Wisconsin Retirement System recorded a Net Pension Liability of \$10.8 million. Deferred outflows of resources related to pensions increased to \$56.7 million and deferred inflows of resources related to pensions increased to \$22.8 million. GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68) and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date an Amendment of GASB Statement No. 68 (GASB 71). These statements provide guidance for how governments measure and report long-term obligations and annual costs associated with the pension benefits they provide. See Note E in the Notes to Financial Statement for additional disclosure information.
- Other assets increased by \$1.7 million, or 4.1%, due to an increase in federal and state aid receivables, as the District now receives a greater portion of its non-operating revenue directly from state appropriations in lieu of property taxes.

Total liabilities increased by \$8.0 million, or 3.3%, for the fiscal year:

- Current liabilities decreased \$2.5 million or 3.7%. In addition to the \$720,270 decrease in the current portion of long-term obligation, there was a decrease of \$1.3 million in accounts payable balances due to year-end invoice accruals. Unearned program and material fees also decreased \$908,807, or less than 1%, due to a decrease in enrollments. Offsetting these decreases is an increase of \$419,550 in the current portion of accrued compensated absences, as the number of eligible employees who are the age of 57 or older has increased slightly.
- Long term liabilities increased by \$10.5 million or 6.0%. The increase is mainly due to the change from Net Pension Asset of \$16.8 million to a Net Pension Liability of \$10.8 million.

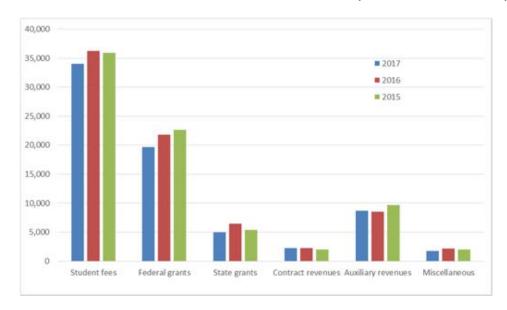

Net position decreased by \$2.9 million, or 2%, for the fiscal year:

- Net investment in capital assets increased \$2.0 million or 2.2%.
- Restricted for debt service increased by \$364,000 or 20.8%. Premiums received on debt issues are included in the debt service fund and accrued interest is excluded from the reserve balance.
- Restricted for Pension decreased by \$16.8 million, or 100%, due to the change from a net pension asset to net pension liability.
- Unrestricted net position increased by \$11.5 million, or 28.1%, due mainly to the result of current year operating activities and non-operating revenues.

Comparison of Operating Revenues
For the Years Ended June 30, 2017, 2016 and 2015 (dollars in thousands)

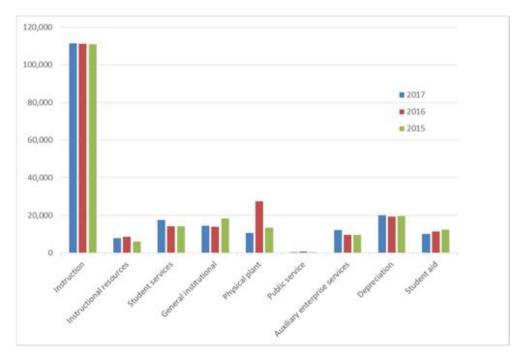

The following is a graphical illustration of operating revenues by source for the fiscal year ended June 30, 2017.

Operating Revenues For the Year Ended June 30, 2017

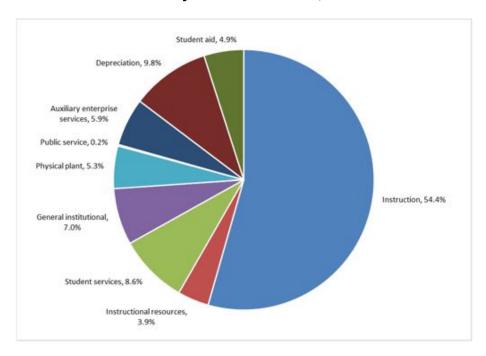

Comparison of Operating Expenses
For the Years Ended June 30, 2017, 2016 and 2015 (dollars in thousands)

The following is a graphical illustration of operating expenses by function for the fiscal year ended June 30, 2017.

Operating Expenses For the year ended June 30, 2017

Fiscal Year 2017 Compared to 2016

Operating revenues are the charges for services offered by the District. During 2017, the District generated \$71.4 million of operating revenue, a decrease of \$5.9 million, or 7.7%:

- Student fees decreased by \$2.1 million or 6.0%. There was a decline in overall enrollment including an 18.63% decline in the technical diploma credits.
- Federal grants decreased by \$2.1 million or 9.8%. It is common to see a similar trend with federal grants and enrollment due to the financial aid awards.
- State grants decreased by \$1.5 million or 22.8%. This is attributable to the Blue Print grant, a multi-year grant that ended within fiscal year 2017.
- Auxiliary revenues increased by \$167,000 or 2%. This is mainly due to the cafeteria being reopened after an extended shutdown period and limited hours of operation due to construction.

Operating expenses are costs related to offering the programs of the District. During 2017, total operating expenses were \$204.7 million, a decrease of \$12.0 million or 5.5%. The decrease was largely due to the decrease in physical plant expenses to \$10.8 million, a decrease of \$16.8 million or 60.8%. The District was able to complete many large remodel/construction projects within fiscal year 2017. This decrease was partially off-set by an increase in expenditures in auxiliary enterprise services to \$12.2 million, an increase of \$2.6 million or 27.4%. The cafeteria was closed for a large part of fiscal year 2016 due to construction. There were increased operating costs once it opened, resulting in the increase over last year.

Non-operating revenues are items not directly related to providing instruction. During 2017, the District generated \$149.9 million of non-operating revenue, an increase of \$8.5 million or 6.0%:

- Property taxes increased by \$7.1 million or 10.7%, while state appropriations decreased by \$1.5 million or 2.1%.
- Investment income increased by \$362,000, or 197.8%, which is attributable to the recent increases in investment rates.
- The District had an increase in gifts and grants of \$2.6 million or 264.2%. This is largely due to the gift received for the new sports complex and athletic fields.

Non-operating expenses are items not directly related to providing instruction. During 2017, total non-operating expenses for the District were \$5.1 million, an increase of \$68,000 or 1.3%. The increase is mainly due to the increase in the losses reported on the disposal of capital assets, which increased by \$38,000 or 24.1%.

Fiscal Year 2016 Compared to 2015

During 2016, the District generated \$77.4 million of operating revenue, a decrease of \$301,000 or less than 1%:

- Student fees increased by \$283,000 or less than 1%.
- State grants increased by \$1.1million or 20.2%. The District was awarded over \$5.0 million as part of a multi-year Wisconsin Fast Forward grant earmarked for Wisconsin technical colleges.
- Federal grants decreased by \$885,000 or 3.9%.
- Auxiliary revenues decreased by \$1.2 million or 12.4% largely in part to the ongoing construction of the main Truax building, which resulted in the shutdown of normal cafeteria operations.

During 2016, total operating expenses were \$216.7 million, an increase of \$11.6 million, or 5.6%. The increase was largely due to the increase in physical plant expenses to \$27.6 million, an increase of \$14.1 million or 104.0%. This increase was partially off-set by a reduction in expenditures across various categories. The District had an increase in capital funds and associated spending for many of the referendum and remodel projects including the large culinary project.

Non-operating revenues are items not directly related to providing instruction. During 2016, the District generated \$141.5 million of non-operating revenue, an increase of \$1.5 million or 1.1%:

- Property taxes increased by \$1.6 million or 2.5%, while state appropriations decreased by \$446,000 or less than 1%.
- Investment income increased by \$92,000 or 100.6%, which is attributable to the recent increases in investment rates.
- The District had an increase in gifts and grants of \$246,000 or 34.1%.

During 2016, total non-operating expenses for the District were \$5.1 million, a decrease of \$162,000 or 3.1%. The decrease is mainly due to the decrease in the losses reported on the disposal of capital assets, which decreased by \$105,000 or 39.8%.

Capital Asset and Debt Administration

The District's investment in capital assets as of June 30, 2017 and 2016, net of accumulated depreciation, amounted to \$251.1 million and \$231.9 million respectively. This investment in capital assets includes land and land improvements, construction in progress, buildings and improvements, and moveable equipment. Additional information on the District's capital assets can be found in Note C of the financial statements.

At the end of the current fiscal year, the District had total general obligation debt outstanding of \$171.1 million. The balance at the end of June 30, 2016 was \$174.3 million. The District's bonds and notes continue to maintain a Standard & Poor's AAA rating, and the District continues to meet all of its debt service requirements. All general obligation debt is repaid over the life of the assets acquired with debt proceeds. The current debt adequately replaces and expands the equipment and facility needs of the District. Additional information on the District's long-term debt can be found in Note D of the financial statements.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Mr. Mark Thomas, Vice President for Administrative Services & Chief Financial Officer, 1701 Wright Street, Madison, WI 53704.

MADISON AREA TECHNICAL COLLEGE DISTRICT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017 AND 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Madison Area Technical College District (the District) was first chartered as the Madison Industrial School in 1912. The District was legally organized on July 1, 1967, under the provisions of Chapter 292, Laws of Wisconsin 1965. The geographic area of the District is comprised of part of twelve counties in south central Wisconsin. There are 225 municipalities and 40 public school districts within the District's boundaries. The District contains 4,415 square miles and operates campuses in five cities: Fort Atkinson, Madison, Portage, Reedsburg and Watertown. In addition, educational offerings are also provided throughout the District.

The governing body of the District is the District Board, which consists of nine members. The members are appointed to staggered three-year terms by twelve county board chairpersons (one from each county served by the District), who meet once a year to appoint members to the three open seats. The District Board membership includes two employers, two employees, three additional members, one school district administrator and one elected official who holds a state or local office. The District Board powers are established under the provisions of Chapter 38 of the Wisconsin Statutes and include:

- Authority to borrow money and levy taxes;
- Budgetary authority; and
- Authority over other fiscal and general management of the District which includes, but is not limited to, the authority to execute contracts, to exercise control over facilities and properties, to determine the outcome or disposition of matters affecting the recipients of the services being provided, and to approve the hiring or retention of key management personnel who implement Board policy and directives.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America (US GAAP) as applicable to public colleges and universities as well as those prescribed by the Wisconsin Technical College System (WTCS). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies.

Reporting Entity

In May 2002, GASB issued Statement No. 39, Determining Whether Certain Organizations are Component Units. In November 2010, GASB issued Statement No. 61, The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34. In January 2016, GASB issued Statement No. 80, Blending Requirements for Certain Component Units – an Amendment of GASB No. 14, to provide additional guidance to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District. Generally, it requires reporting, as a component unit, an organization that raises and holds economic resources for the direct benefit of a governmental unit.

Madison Area Technical College Foundation, Inc. (Foundation) is a not-for-profit corporation whose purpose is to solicit, hold, manage, invest, and expend endowment funds and other gifts, grants, and bequests exclusively for the maintenance and benefit of the District and its students. The Foundation is managed by an independent board of directors, and is not fiscally accountable to the District.

MADISON AREA TECHNICAL COLLEGE DISTRICT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017 AND 2016

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The financial resources of the Foundation are insignificant to the District as a whole and accordingly, financial information related to the Foundation is not included in these financial statements.

Basis of Accounting and Financial Statement Presentation

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities. Accordingly, the financial statements of the District have been prepared using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the years for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All significant intra-district transactions have been eliminated.

Use of Estimates

In preparing basic financial statements in conformity with US GAAP, the District is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash includes demand deposits held at banks and small amounts maintained for change funds. Cash equivalents are defined as short-term highly liquid investments readily converted to cash with original maturities of three months or less when acquired.

Investments

GASB No. 72, Fair Value Measurement and Application provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to fair value measurements. Investments, other than the Wisconsin Local Government Investment Pool (LGIP) and Certificates of Deposits are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Adjustments to fair value are recorded in the operating statement in investment income.

The Wisconsin Investment Series Cooperative (WISC) was created in 1988 and is a comprehensive cash management program exclusively for Wisconsin school districts, technical college districts, municipalities, and other public entities. An investment in the fund represents an undivided beneficial ownership interest in the assets of WISC and the securities and instruments in which the assets of WISC are invested. WISC was established pursuant to an Intergovernmental Cooperation Agreement under the Wisconsin intergovernmental cooperation statute, Wisconsin Statutes, Section 66.0301. WISC is governed by a commission (the "Commission") in accordance with the terms of the Intergovernmental Cooperation Agreement. The Commission has full power, control and authority (including delegative authority) over the affairs, investments and assets of the fund. WISC currently consists of the Cash Management Series, the Investment Series and the Limited Duration Series (LTD). Each of these series is invested in a separate portfolio of permitted investments. Annually audited financial statements of WISC are provided to all participants.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments (continued)

The WISC Mult-class Series currently meet all of the necessary criteria to elect to measure all of the investments in the Series at amortized cost. WISC Limited Term Duration (LTD) series measures its investments at fair value. The WISC investment pools are exempt from the GASB 72 fair value hierarchy disclosures. At June 30, 2017 and 2016, the fair value of the District's share of WISC's assets was substantially equal to the amount reported in these statements.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At June 30, 2017 and 2016, the fair value of the District's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

Inventories

Inventories of books and supplies are stated at the lower of cost or market; cost is determined primarily by the first-in, first-out method.

Capital Assets

Capital assets are valued at historical cost, less accumulated depreciation. Donated capital assets, donated works of art and similar items are reported at acquisition value. The costs of maintenance and repairs are charged to operations as incurred. Equipment assets having a cost of \$5,000 or more per unit and building or remodeling projects of \$15,000 or more are capitalized. Depreciation on buildings and equipment is provided in amounts sufficient to relate the cost of the depreciable assets to operations on the straight-line basis over the estimated useful life of the asset, which range from three to ten years for equipment and fifteen to fifty years for buildings and remodeling.

Capitalized interest is calculated for all construction in progress (CIP) assets which are being funded from proceeds of tax-exempt bonds. The amount of interest cost capitalized for these assets is calculated by netting the interest on the bonds with the interest earned on investments acquired with the bond proceeds, from the date of the bond issuance until the assets are ready for their intended use. As of June 30, 2017 and 2016, the District had capitalized interest of \$221,293 and \$204,482, respectively.

Property Taxes and Taxes Receivable

The District Board, under Section 38.16 of the Wisconsin Statutes, on an annual basis levies a tax for operating purposes. Prior to fiscal year 2013-14, the District was permitted to levy property taxes up to a statutorily allowed operational mill rate of 1.5 mills; the District consistently remained below the limit. Beginning in fiscal year 2013-14 with 2013 Wisconsin Act 20, the mill rate limit was changed to cap the operational levy at 2013 levels. Increases in the operating levy are only possible with increases in the District's net new construction. Beginning in fiscal year 2014-15, under 2013 Wisconsin Act 145, this operational levy limit was eliminated and an estimated 0.89 mills were removed from property taxes and transferred to state funding.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property Taxes and Taxes Receivable (continued)

The mill rate limitation is not applicable to taxes levied for the purposes of paying principal and interest on general obligation debt issued by the District that is used for capital improvements and equipment acquisitions.

The District communicates its property tax levy to city, village and town treasurers or clerks in October of the fiscal year for which the taxes are levied. The following dates are pertinent to the District's tax calendar:

Levy date	October 31, or within 10 days of receipt of equalized valuation, whichever is later
Payments:	
Taxes paid on or before December 31	Due to District by January 15
Taxes paid between January 1 and January 31	Due to District by February 20
Second installment due by July 31	Remaining balance due to District
	by August 20

The District recognizes its total levy as revenue in the fiscal year for which taxes are levied.

The 2017 and 2016 tax levies were as follows:

	Fiscal Year ending June 30, 2017				
		2017		2016	
Mill rate for operations		0.51176		0.50821	
Operational levy	\$	38,539,818	\$	36,544,859	
Mill rate for debt service		0.45398		0.41915	
Debt Service levy	\$	34,188,500	\$	30,140,646	
Total mill rate		0.96574		0.92736	
Total tax levy	\$	72,728,318	\$	66,685,505	

Accumulated Unpaid Vacation, Sick Leave and Other Employee Benefit Amounts

Vacation

Accumulated vacation is recorded as accrued compensated absences in the statement of revenues, expenses and changes in net position.

Retirement Plan

The District has a retirement plan covering substantially all of its employees, which is funded through contributions to the Wisconsin Retirement System ("WRS"). In June 2012, GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68).

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accumulated Unpaid Vacation, Sick Leave and Other Employee Benefit Amounts (continued)

This statement provides guidance for how governments measure and report long-term obligations and annual costs associated with the pension benefits they provide. GASB 68 has been implemented by the District effective June 30, 2015.

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Sick Leave

The District's employee fringe benefit program includes provisions that allow, at defined retirement, the dollar conversion of accumulated sick leave to a lump-sum distribution paid into the Special Pay Deferral Plan, the Health Reimbursement Arrangement (HRA), or a combination of the two. This payment is dependent on the health insurance choice at the time of retirement.

Employees over 55 with at least 5 years full time service, shall be paid (as explained below) for accumulated sick days for a maximum of 112.5 days. The non-vested compensated absences have been recorded based on the District's prior experience with employees remaining and receiving payment and the maximums allowed. The recorded sick leave is the amount reasonably expected to be paid out.

Effective July 1, 2015, new full time employees are not eligible for the sick leave payout upon retirement. New employees can accumulate up to 150 sick days, but the days are considered "non-vested" sick days. Current full time employees employed by the District as of June 30, 2015, are still eligible for the sick leave payout upon retirement as described. However, the employee's sick leave balance as of June 30, 2015, ("vested" sick days) will not increase. In addition, the employee's pay rate as of June 30, 2015, will be used to calculate the sick leave payout upon retirement.

Special Pay Deferral Plan

In December 2002, the District established the Special Pay Deferral Plan (the "Plan"), a tax qualified governmental retirement plan under sections 401(a) and 414(d) of the Internal Revenue Code of 1986 (the "Code"), as amended, to which it contributes all or a portion of an employee's accumulated sick leave payout upon retirement. The Plan also includes a tax-sheltered custodial account plan under section 403(b) of the Code, to which it contributes the excess, if any, of the employee's accumulated sick leave over the maximum amount that could be contributed to the tax qualified governmental retirement plan described in the preceding sentence.

Health Reimbursement Arrangement

In July 2003, the District established the Health Reimbursement Arrangement (HRA), a tax qualified governmental retirement plan under sections 401(a) and 414(d) of the Internal Revenue Code of 1986 (the "Code"), as amended, to which it contributes all or a portion of an employee's accumulated sick leave payout upon retirement. The HRA enables participants and their dependents to be reimbursed tax-free for eligible medical and dental expenses and health insurance premiums. Payments to the HRA are combined with payments to the Special Pay Deferral Plan.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accumulated Unpaid Vacation, Sick Pay and Other Employee Benefit Amounts (continued)

Retiree Health Insurance

The District also provides post-retirement health care benefits to full time teachers, paraprofessional/school related personnel ("PSRP") and administrators.

For fiscal year 2016-17 teachers, PSRP employees and administrators who had been employed by the District for 30 or more years and who had attained the age of 57 at the time of retirement, or had been employed by the District for 20 or more years and who had attained the age of 60 at the time of retirement, received a single health insurance plan premium (WPS or GHC) to be paid for until the retiree reaches age 65 or qualifies for Medicare, whichever is earlier.

Fees and Tuition

Fees and tuition are recorded as revenue in the period in which the related activity or instruction takes place. Revenues for the summer semester are prorated on the basis of student class days occurring before and after June 30. The District's student fee receivable is stated at amounts due from students, net of an allowance for doubtful accounts. Amounts outstanding longer than the agreed upon payment terms are considered past due. The District determines its allowance for doubtful accounts by considering a number of factors including length of time amounts are past due, and the District's previous loss history. The District writes off receivables when they become uncollectible, and payments subsequently collected on such receivables are credited to the allowance for doubtful accounts.

State and Federal Revenues

The District receives funding from various federal and state contracts and grants. These revenues are earned as expenditures are incurred. Such expenditures may be incurred during the grantor's fiscal period, which may be different than that of the District's fiscal period and are subject to the Title II US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and state single audit guidelines.

Federal Financial Assistance Programs

The District participates in federally funded Pell Grants, SEOG Grants, Federal Work-Study, and Federal Direct Student Loans programs. Federal programs are audited in accordance with the Uniform Guidance and the Compliance Supplement.

Scholarship Allowances and Student Aid

Financial aid to students is reported in the financial statements under the alternative method, as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid (Foundation scholarships or funds provided to students by third parties) is accounted for as third party payments (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating revenue when received and operating expense when disbursed or scholarship allowances, which reduce revenues. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Classification of Revenue and Expense

The District has classified its revenues and expenses as either operating or non-operating according to the following criteria:

<u>Operating revenues/expenses:</u> Operating revenues and expenses include activities that have the characteristics of exchange transactions to provide goods or services related to the District's principal ongoing operations. Operating revenues include 1) student tuition and fees, net of scholarship allowances, 2) sales and services provided by auxiliary enterprises, and 3) most federal, state and local grants and contracts that are essentially the same as contracts for services that finance programs of the District. Operating expenses include the cost of providing educational services, student aid, administrative expenses and depreciation on capital assets.

Non-operating revenues/expenses: Non-operating revenues and expenses include activities that have the characteristics of non-exchange transactions. Non-operating revenues are classified as defined by GASB Statement No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting, and GASB Statement No. 34, Basic Financial Statements and management's Discussion and Analysis for State and Local Governments. These revenues include gifts and contributions and other revenue sources such as state appropriations, the local property tax levy, investment income, and any grants and contracts not classified as operating revenue or restricted by the grantor to be used exclusively for capital programs. Non-operating expenses include interest on long-term obligations and losses on the disposal of capital assets.

Net Position

Net position is classified according to restrictions on availability of assets for satisfaction of District obligations.

Net investment in capital assets: This represents the net value of capital assets (land, buildings and equipment) less the debt incurred to acquire or construct the assets (excluding unamortized debt premiums) plus the borrowed resources not yet expended, but restricted for capital purchases. Premiums on debt are excluded from this calculation because they have been reserved for debt service and are therefore not capital related debt.

Restricted net position: Restricted net position includes resources in which the District is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

Restricted net position for debt service: This represents resources that can only be used to repay debt service costs (principal and interest) as they are levied for that specific purpose.

Unrestricted net position: Unrestricted net position represents resources derived from student tuition and fees, state appropriations, and sales and services provided by educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the District and may be used at the discretion of the governing board to meet current expenses for any purpose.

When an expense is incurred that can be paid using either restricted or unrestricted resources, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE B - CASH, CASH EQUIVALENTS AND INVESTMENTS

The District's cash and cash equivalents include cash on hand, demand deposits with financial institutions, certificates of deposit and short-term investments with original maturities of three months or less from the date of acquisition. Investments include debt securities and certificates of deposit with original maturities greater than three months from the date of acquisition.

Cash, Cash Equivalents and Investments

The District's cash, cash equivalents and investments consist of the following amounts at June 30:

	<u>2017</u>	<u>2016</u>
Cash and cash equivalents		
Petty cash funds	\$ 19,531	\$ 16,222
Cash in bank	54,711,867	71,985,955
Wisconsin Local Government Investment Pool (LGIP)	534,168	579,982
Wisconsin Investment Series Cooperative -		
Cash Management Series	 3,818,777	 3,051,751
Cash and cash equivalents sub-total	59,084,343	75,633,910
Investments		
Limited Term Duration Investment	20,094,710	-
Certificates of Deposit	 2,249,828	 10,253,938
Investment sub-total	22,344,538	 10,253,938
Total cash, cash equivalents and investments	\$ 81,428,881	\$ 85,887,848

Cash, cash equivalents and investments are presented in the financial statements as follows:

		<u>2017</u>	<u> 2016</u>
Current assets			
Unrestricted cash and cash equivalents	\$	48,237,034	\$ 43,323,150
Restricted cash and cash equivalents		10,847,309	42,310,760
Restricted investments		22,344,538	 10,253,938
Total cash, cash equivalents and investments	<u>\$</u>	81,428,881	\$ 85,887,848
Restricted investments	<u> </u>	22,344,538	\$ 10,253,93

Custodial Credit Risk – Deposits. Custodial risk is the risk that, in the event of a financial institution failure, the District's deposits may not be returned to the District. The District does not have a policy regarding custodial credit risk for deposits. As of June 30, 2017 and 2016, the District had cash bank balances of \$54.7 and \$72.0 million, respectively, which were covered by depository insurance or secured through third party collateral agreements. As a result, the District did not hold any deposits that were exposed to custodial credit risk.

NOTE B - CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

Cash Equivalents and Investments

The District is authorized by Wisconsin Statute 66.0603 to invest in the following instruments:

- Obligations of the U.S. Treasury and U.S. Agencies.
- Obligations of any Wisconsin county, city, drainage district, technical college district, village, town or school district.
- Time deposits in any bank, trust company or savings and loan association that is authorized to transact business in Wisconsin, if the time deposits mature in not more than three years.
- The state's local government pooled investment fund or Wisconsin Investment Series Cooperative.
- Any security maturing in seven years or less with either the highest or second rating category
 of a nationally recognized rating agency.
- Repurchase agreements with public depositories, if the agreement is secured by federal bonds or securities.
- Securities of open-end management investment companies or investment trusts, if the portfolio is limited to obligations of the U.S. Treasury and U.S. Agencies.
- Bonds issued by a local exposition district, local professional baseball park district, or the University of Wisconsin Hospitals and Clinics Authority.

Further, the District has adopted an investment policy that requires the investment portfolio to be diversified as to instruments and dealers, subject to the following maximums by instrument:

Repurchase agreements	25%
Certificates of deposit	65%
U.S. Treasury bills or notes	100%
Other U.S. government agencies	75%
Wisconsin Local Government Investment Pool	50%
Wisconsin Investment Series Cooperative -	
Investment Series	75%
Commercial Paper	75%
Bankers' acceptances	20%
Open-end investment companies	100%

Individual issues may not exceed 5% of the market value of the portfolio at the time of purchase with the exception of U.S. Government issues fully guaranteed as to both principal and interest by the U.S. Government or agencies thereof, shares of open-end investment companies (mutual funds), the Wisconsin Local Government Investment Pool and the Wisconsin Investment Series Cooperative.

Custodial Credit Risk – Cash Equivalents and Investments. Is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a policy regarding custodial credit risk for cash equivalents. Wisconsin Investment Series Cooperative instruments are held by the District's agent in the District's name. It is the District's policy to secure all investment securities through third party custody and safekeeping procedures. CD's are covered by depository insurance up to \$250,000 per issuing bank. As of June 30, 2017 and 2016, the District had \$3,938 and \$3,938, respectively, exposed to custodial credit risk on its investments.

NOTE B - CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

Cash Equivalents and Investments (continued)

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy limits the maturity of any security to no more than five years from the date of purchase or in accordance with state and local statutes and ordinances. In addition, the policy indicates that the investment portfolio should be structured so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. The policy sets a maximum duration range of two years with a target duration of one year. As of June 30, 2017 the LGIP had an average maturity of 29 days and the Wisconsin Investment series had an average maturity of 0.95 days.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The District's investment policy explicitly states that it will minimize credit risk by limiting investments to the safest type of securities and diversifying the investment portfolio - consistent with those investments allowed by state statutes, and according to the maximum percentages as previously disclosed within this footnote. In addition, individual securities may not exceed 5% of the market value of the portfolio at the time of purchase with the exception of U.S. Government issues fully guaranteed as to both principal and interest by the U.S. Government or agencies thereof, shares of open-end investment companies, the Wisconsin Local Government Investment Pool, or the Wisconsin Investment Series Cooperative Cash Management and Investment Series are rated AAAm by Standard and Poor's for principal stability. The Wisconsin Local Government Investment Pool is not rated.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District does not have any investments to report separately under GASB Statement No. 72 as the investments are excluded under this measurement.

Cash and investments are classified on the Statement of Net Position as follows at June 30:

	<u>2017</u>	<u> 2016</u>
Restricted for:		
Debt service	\$ 4,206,495	\$ 4,021,171
Capital projects	 28,985,352	 38,543,527
Total restricted	33,191,847	42,564,698
Unrestricted	 48,237,034	 43,323,150
Total cash and cash equivalents and investments	\$ 81,428,881	\$ 85,887,848

The portion of cash, cash equivalents and investments restricted is for compliance with legal requirements and cannot be used for general purposes of the District.

NOTE C - CAPITAL ASSETS

Capital asset activity was as follows for the year ended June 30, 2017:

	2017				
	Beginning Balance	Additions	Deletions	Ending Balance	
Capital assets, not being depreciated					
Land	\$ 5,066,138			\$ 5,066,138	
Construction in progress	22,042,931	8,549,217	21,609,605	8,982,543	
Total capital assets, not being

The Wisconsin State Statutes Chapter 67.03(1) provides that the aggregate amount of indebtedness of a District shall not exceed 5% of the value of the taxable property located in the District. The 5% limit for 2016-2017 was \$3,930,618,713; the aggregate indebtedness of the District for the same period was \$171,125,000. The 5% limit for 2015-2016 was \$3,776,113,218; the aggregate indebtedness of the District for the same period was \$174,310,000. Debt service funds of \$2,283,377 available on June 30, 2017 result in a margin of \$3,761,777,090. Debt service funds of \$2,119,451 available on June 30, 2016 result in a margin of \$3,603,922,669.

The maximum bonded indebtedness of the District for purchasing and constructing buildings and equipment may not exceed 2% of the value of the taxable property within the District. The 2% limit for 2016-2017 was \$1,572,247,485; the 2% limit for 2015-2016 was \$1,510,445,287. The District had bonded indebtedness of \$171,125,000 and \$174,310,000 for the years ending June 30, 2017 and June 30, 2016, respectively. Debt service funds of \$2,283,377 available on June 30, 2017 result in a margin of \$1,403,405,862. Debt service funds of \$2,119,451 available on June 30, 2016 result in a margin of \$1,338,254,738.

NOTE E - RETIREMENT PLAN

Plan description - The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS. ETF is responsible for administration of the WRS and the State of Wisconsin Investment Board (SWIB) is responsible for managing WRS investments.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at http://etf.wi.gov/publications/cafr.htm.

Vesting - For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits provided - Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The District may elect to make a one-time actuarial reduction contribution to WRS on behalf of an employee retiring at age 57 or after, which would allow the District employee to receive a retirement benefit that has not been actuarially reduced. Total actuarial reduction contributions paid for the years ended June 30, 2017 and 2016 were \$110,901 and \$626,146, respectively.

The WRS also provides death and disability benefits for employees.

NOTE E – RETIREMENT PLAN (continued)

Post-Retirement Adjustments - The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2007	3.0	10
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)
2013	(9.6)	9
2014	4.7	25
2015	2.9	2
2016	0.5	(5)

Contributions - Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$6,141,285 in contributions from the employer. All District employees covered by the WRS fall under the General category.

Contribution rates as of June 30, 2016 are:

Employee Category	Employee	Employer
General (including teachers)	6.6%	6.6%

Contribution rates as of June 30, 2017 are:

Employee Category	Employee	Employer
General (including teachers)	6.8%	6.8%

NOTE E – RETIREMENT PLAN (continued)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2017, the District reported a liability (asset) of \$5,333,502 for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2015 rolled forward to December 31, 2016. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability (asset) was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2016, the District's proportion was 0.6471%, which was a decrease of 0.0162% from its proportion measured as of December 31, 2015.

For the year ended June 30, 2017, the District recognized pension expense of \$13,906,960.

At June 30, 2017 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$2,033,665	\$16,773,403
Changes in assumptions	5,576,383	0
Net differences between projected and actual earnings on pension plan investments	31,807,180	5,258,696
Changes in proportion and differences between employer contributions and proportionate share of contributions	744,139	66,944
Employer contributions subsequent to the measurement date	3,158,608	0
Total	\$43,319,975	\$22,099,043

The \$3,158,608 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year ended June 30:	Deferred Outflow of Resources	Deferred Inflows of Resources
2018	\$13,953,608	\$6,697,879
2019	13,953,608	6,697,879
2020	11,706,120	6,680,659
2021	534,416	2,022,626
Thereafter	13,615	0

NOTE E – RETIREMENT PLAN (continued)

Actuarial assumptions. The total pension liability in the December 31, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2015
Measurement Date of Net Pension Liability (Asset)	December 31, 2016
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary Increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.6%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments*	2.1%*

^{*} No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2015 using experience from 2012-2014. The total pension liability for December 31, 2016 is based upon a roll-forward of the liability calculated from the December 31, 2015 actuarial valuation.

Long-term Expected Return on Plan Assets - The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

NOTE E – RETIREMENT PLAN (continued)

Asset Allocation Targets and Expected Returns								
As of December 31, 2016								
					Long-Term		Long-Term	
			Destination		Expected		Expected	
	Asset		Target Asset		Nominal Rate		Real Rate	
Core Fund Asset Class	Allocation 9	<u>%</u>	Allocation %	<u>.</u>	of Return %		of Return %	
Global Equities	50	%	45	%	8.3	%	5.4	%
Fixed Income	24.5		37		4.2		1.4	
Inflation Sensitive Assets	15.5		20		4.3		1.5	
Real Estate	8		7		6.5		3.6	
Private Equity/Debt	8		7		9.4		6.5	
Multi-Asset	4		4		6.6		3.7	
Total Core Fund	110	%	120	%	7.4	%	4.5	%
Variable Fund Asset Class								
U.S. Equities	70	%	70	%	7.6	%	4.7	%
International Equities	30		30		8.5		5.6	
Total Variable Fund	100	%	100	%	7.9	%	5	%

New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.75%

Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations.

Single Discount rate - A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long term bond rate of 3.78%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability (asset) to changes in the discount rate - The following presents the District's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

NOTE E – RETIREMENT PLAN (continued)

	1% Decrease to Discount Rate (6.20%)	Current Discount Rate (7.20%)	1% Increase To Discount Rate (8.20%)
District's proportionate share of the net pension liability (asset)	\$70,165,641	\$5,333,502	(\$44,590,181)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at the Department of Employee Trust Fund's website: http://etf.wi.gov/publications/cafr.htm.

NOTE F - OTHER POSTEMPLOYMENT BENEFITS

The District's group health insurance plan provides coverage to active employees and retirees at blended premium rates. This results in another postemployment benefit (OPEB) for the retirees, commonly referred to as an implicit rate subsidy. The plan is administered by the District and does not issue a stand-alone financial report.

The District contributes 100% of a single retiree premium until age 65 or Medicare eligible, whichever is sooner. The District's funding policy is to provide annual contributions on a pay-as-you-go basis.

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the Retiree Health Plan for the years ended June 30, were as follows:

	<u>2017</u>	<u>2016</u>
Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$1,360,740 65,343 (107,888)	\$1,343,337 83,738 (138,261)
Annual OPEB cost (expense) Contributions made	1,318,195 (1,934,000)	1,288,814 (1,902,000)
Increase in net OPEB obligation Net OPEB Obligation - Beginning of Year Net OPEB Obligation - End of Year	(615,805) 2,178,093 \$1,562,288	(613,186) 2,791,279 \$2,178,093

NOTE F - OTHER POSTEMPLOYMENT BENEFITS (continued)

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

Fiscal Year Ended	Annual OPEB Cost		Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation	
June 30, 2017 June 30, 2016 June 30, 2015	\$	1,318,195 1,288,814 1,562,438	146.72% 147.58% 95.65%	\$	1,562,288 2,178,093 2,791,279

The funded status of the plan as of July 1, 2015, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL) Actuarial value of plan assets	\$ 15,384,752
Unfunded Actuarial Accrued Liability (UAAL)	\$ 15,384,752
Funded ratio (actuarial value of plan assets/AAL) Covered payroll (active plan members) - Fiscal Year 2016-2017 UAAL as a percentage of covered payroll	0% \$ 92,987,378 16.54%

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to financial statements presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation, the unprotected unit credit actuarial cost method was used. The actuarial assumptions include a 3.0% interest discount rate and an annual healthcare cost trend rate of 4.6% initially, increased to 6.9% in 2017-18 and reduced by decrements to an ultimate rate of 5.2% in 2020-21. The plan's initial unfunded actuarial accrued liability is being amortized over a closed 30-year period beginning July 1, 2007. Subsequent gains and losses are being amortized over an open 30-year basis.

NOTE G - COMMITMENTS

Operating Leases

The District has a number of lease agreements for the rental of classroom, office, and lab space with varying expiration dates. The future minimum lease payments for these leases are:

Operating Leases

Year Ending June 30		
2018	\$	1,217,806
2019		1,165,282
2020		978,939
2021		1,002,027
2022		973,301
Thereafter	•	1,279,594

The District's other operating leases are primarily month-to-month and year-to-year for instructional facilities and equipment. Rent expenses under all operating leases for the years ended June 30, 2017 and 2016 were \$1,091,328 and \$2,280,142 respectively.

Capital Leases

Effective in 1983, the District entered into a 99-year agreement with Dane County to lease land for the Truax Campus. Beginning April 1, 2033 and continuing thereafter, the District has the option to purchase the leased land. The purchase price is equal to the original base value increased by a rate of 1% for every year that passed since 1983. This lease has been accounted for as a capital lease; as such, the leased land has been capitalized at the original base value of \$570,000.

Future minimum lease payments required under the capital lease by year and the net present value of the minimum lease payments under this lease as of June 30, 2017 are as follows:

Capital Leases	
Year Ending June 30	
2018	\$ 45,911
2019	46,370
2020	46,833
2021	47,302
2022	47,775
2023-2027	246,136
2028-2032	258,690
Total required minimum lease payments	 739,017
Less amount representing interest	(694,600)
Net Present Value of minimum lease payments	\$ 44,417

NOTE H - RISK MANAGEMENT

Districts Mutual Insurance Company (DMI)

In July 2004, all sixteen WTCS technical colleges created Districts Mutual Insurance Company (DMI). Districts Mutual Insurance Company is a fully-assessable mutual company authorized under Wisconsin statute 611 to provide worker compensation, property, casualty, equipment breakdown, cyber risk, and campus violent acts coverage, as well as liability and risk management services to its members. The scope of insurance protection provided by DMI is broad, covering property at \$500,225,000 per occurrence; general liability, auto, and educators' legal liability at \$5,000,000 per occurrence; and workers' compensation at the Wisconsin statutorily required limits.

At this time, settled claims have not approached the coverage limits as identified above. The District's exposure in its layer of insurance is limited to \$5,000 to \$100,000 per occurrence depending on the type of coverage and DMI purchases reinsurance for losses in excess of its retained layer of coverage.

DMI operations are governed by a five-member board of directors. Member colleges do not exercise any control over the activities of DMI beyond election of the board of directors at the annual meeting. The board has the authority to adopt its own budget, set policy matters, and control the financial affairs of the company.

For the year ended June 30, 2017 and 2016, the District paid DMI insurance premiums of \$826,615 and \$859,836 respectively. Future premiums will be based on relevant rating exposures as well as the historical loss experience by members.

The DMI financial statements can be obtained through Districts Mutual Insurance Co., 212 West Pinehurst Trail, Dakota Dunes, SD 57049.

Supplemental Insurance

In July 1997, the WTCS technical colleges formed the WTCS Insurance Trust to jointly purchase commercial insurance to provide coverage for losses from theft of, damages to, or destruction of assets. The trust is organized under Wisconsin Statutes 66.0301 and is governed by a board of trustees consisting of one trustee from each member college. Member entities include all sixteen Wisconsin Technical College System districts.

The WTCS Insurance Trust has purchased the following levels of coverage from Arthur J. Gallagher for its participating members:

<u>Crime:</u> \$750,000 coverage for employee dishonesty, forgery, computer fraud and funds transfer fraud; \$750,000 coverage for theft, robbery, burglary, disappearance and destruction of money and securities; \$25,000 coverage for investigation expenses; \$5,000 deductible for investigation, \$15,000 deductible for employee dishonesty, forgery and fraud.

<u>Foreign liability</u>: \$5,000,000 aggregate general; \$1,000,000 auto per accident; \$1,000,000 employee benefits; includes benefit for accidental death and dismemberment, repatriation, and medical expenses; \$1,000 deductible for employee benefits.

NOTE H - RISK MANAGEMENT (continued)

Supplemental Insurance (continued)

<u>Business Travel Accident:</u> Commercial; \$1,000,000 per occurrence; \$5,000,000 aggregate; \$2,000,000 aggregate (products-completed operations); \$1,000,000 (personal and advertising injury); \$1,000,000 (damage to premised — rented); \$25,000 medical expenses. Employee; \$1,000,000 per claim; \$1,000,000 aggregate. Auto Liability; \$1,000,000 per accident. \$1,000 deductible.

In addition to employee health insurance, the District also purchases the following additional insurance:

<u>Athletics:</u> Basic sports coverage; \$25,000 maximum medical benefits per injury; \$0 deductible. Catastrophic sports coverage; \$5 million maximum per incident; \$25,000 deductible. Basic coverage is secondary to the student's personal insurance coverage.

<u>Underground Storage Tanks:</u> \$2,000,000 per tank incident (claims and remediation); \$4,000,000 aggregate per tank incident (claims and remediation); \$2,000,000 aggregate per tank incident (all legal defense expenses); \$6,000,000 total policy aggregate for all incidents; \$25,000 deductible.

<u>Surety Bonds – Motorcycle Program:</u> \$30,000 surety bond as required by the Wisconsin Department of Transportation for motorcycle training programs.

NOTE I – SELF-INSURANCE

The District is exposed to various risks of loss related to property and casualty claims. Under the program, the self-insurance fund provides coverage for property and casualty claims which are either in excess of policy coverage limits or less than or equal to deductible amounts on certain policies. The District purchases commercial insurance for claims in excess of coverage provided by the fund and for all other risks of loss.

Settled dental claims have not exceeded commercial insurance coverage and there have been no reductions in insurance coverage in the past three years.

The claims liability is reported as accounts payable and is based on the requirement that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable a liability has been incurred at the financial statement date and the amount of the loss can be reasonably estimated.

Changes in the dental claims liability for the years ended June 30 were as follows:

<u>Fiscal</u> <u>Year</u>	_	ginning alance	Plus: Claims	<u>Less:</u> <u>Payments</u>	Ending Balance
2017	\$	70,000	\$1,523,531	\$1,516,131	\$77,400
2016	\$	70 000	\$1,550,336	\$1,550,336	\$70,000

NOTE J - CONTINGENCIES

The District receives regular program aids from the Wisconsin Technical College System Board based on aidable expenditures. This amount is subject to adjustment based on a state audit of the full-time equivalent students and cost allocation reports of the District and other districts of the state. The state audit for the year ended June 30, 2017 has not been completed. It is the belief of management of the District that audit adjustments, if any, will not materially affect the District's financial position.

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

The District is currently involved in a personnel grievance with a former employee. There is a difference of opinion and there will be a preliminary hearing within the next fiscal year. The matter is in its early stages, so no final decision is expected in the next twelve months. Management is comfortable that its position in this matter is well-supported and expects to defend the matter vigorously, however, the outcome of the matter cannot be predicted.

The District is involved in numerous other lawsuits, many of which normally occur in governmental operations. No provision has been made for any liability as a result of these proceedings due to the fact that such liability is not readily estimable and not expected by management to materially affect the District's financial position.

NOTE K - EXPENSES CLASSIFICATION

Expenses on the Statements of Revenues, Expenses and Changes in Net Position are classified by function. Alternatively, the expenses could also be shown by type of expense, as follows for the year ended June 30:

	<u>2017</u>	<u>2016</u>
Salaries and wages	\$ 96,167,832	\$ 100,020,164
Fringe benefits	42,576,921	39,789,361
Travel, memberships and subscriptions	2,552,344	1,093,668
Supplies	8,054,063	19,545,018
Postage	225,475	247,103
Contract services	20,984,425	20,409,447
Rentals	1,218,350	2,350,513
Credit	925,926	971,379
Insurance	947,019	1,047,070
Utilities	3,076,554	2,639,741
Depreciation	20,028,875	19,326,838
Student aid	 7,969,059	9,250,144
Total Operating Expenses	\$ 204,726,844	\$ 216,690,447

NOTE L - RECLASSIFICATION

In 2017, certain amounts were reclassified for 2016 where appropriate to conform with the 2017 financial statement presentation.

NOTE M - LEASES ON DISTRICT OWNED/LEASED SPACE

The District has leases with companies to operate businesses on District owned space. As of June 30, 2017, the District leases space to nine unique tenants. The total anticipated lease payments to be made to the College are \$559,959 for fiscal year 2017-18. Expenditures for the leased spaces are anticipated to exceed the revenue received.

NOTE N - SUBSEQUENT EVENTS

Budget Revisions

The District Board authorized various expenditure budget revisions. The purpose of these revisions was to appropriately eliminate all material negative budget variances. These revisions were accomplished by reallocating among various budget classifications without affecting the total budgeted expenditures.

Debt Issuance

On August 2, 2017, the District issued General Obligation Promissory Notes, Series 2017-18A, totaling \$8,290,000 with interest rates varying between 4.0% and 5.0% payable on March 1 and September 1 annually. Principal payments of varying amounts are due on March 1 of each year until maturity on March 1, 2020. Proceeds will be used for paying the cost of the acquisition of moveable equipment and building remodeling and improvement projects. The Notes are not subject to redemption prior to maturity.

On November 1, 2017, the District issued General Obligation Promissory Notes, Series 2017-18B, totaling \$8,450,000 with interest rates varying between 2.0% and 4.0% payable on March 1 and September 1 annually. Principal payments of varying amounts are due on March 1 of each year until maturity on March 1, 2024. Proceeds will be used for paying the cost of the acquisition of moveable equipment and building remodeling and improvement projects. The Notes are not subject to redemption prior to maturity.

MADISON AREA TECHNICAL COLLEGE DISTRICT OTHER POSTEMPLOYMENT AND PENSION BENEFITS PLAN (UNAUDITED) Year Ended June 30, 2017

SCHEDULE OF FUNDING PROGRESS - OTHER POSTEMPLOYMENT BENEFITS PLAN

Schedule of Funding Progress

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)- Projected Unit Credt	Unfunded AAL (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
07/01/17	\$ - \$	15,384,752 \$	15,384,752	0%	\$ 92,987,378	16.54%
07/01/15	-	16,246,198	16,246,198	0%	91,551,015	17.75%
07/01/13	-	17,409,365	17,409,365	0%	95,237,531	18.28%
7/1/2011	-	17,060,014	17,060,014	0%	90,970,358	18.75%

The data presented above was taken from the actuarial report. This schedule is intended to show information for ten years and additional years' information will be displayed as it becomes available.

SCHEDULE OF DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY (ASSET) Wisconsin Retirement System Last 10 Measurement Periods*

	2016	2015	2014
District's proportion of the net pension			
liability (asset)	0.6471%	0.6633%	0.6846%
District's proportionate share of the net			
pension liability (asset)	5,333,502	10,778,119	(16,814,521)
District's covered-employee payroll	92,244,957	90,934,540	91,871,959
District's proportionate share of the net			
pension liability/asset as a percentage of			
its covered payroll	5.8%	11.9%	18.3%
Plan fiduciary net position as a			
percentage of the total pension liability			
(asset)	99.1%	98.2%	102.7%

^{*}Represents WRS measurement dates ending December 31st.

SUPPLEMENTARY INFORMATION

The following supplementary information is provided to document Madison College's compliance with budgetary requirements. This accountability is an essential requirement to maintain the public trust. The method of accounting used for budgetary compliance monitoring is substantially different from the method of preparing the basic financial statements of the District. At the end of this section is reconciliation between the two methods.

MADISON AREA TECHNICAL COLLEGE DISTRICT OTHER POSTEMPLOYMENT AND PENSION BENEFITS PLAN (UNAUDITED) Year Ended June 30, 2017

SCHEDULE OF DISTRICT'S CONTRIBUTIONS Wisconsin Retirement System Last 10 Fiscal Years*

	2017	2016	2015
Contractually required contributions	6,141,285	6,187,208	6,436,255
Contributions in relation to the			
contractually required contributions	6,141,285	6,187,208	6,436,255
Contribution deficiency (excess)	0	0	0
District's covered-employee payroll	92,987,378	90,934,540	91,871,959
Contributions as a percentage of			
covered-employee payroll	6.60%	6.80%	7.01%

^{*}Represents the District's contributions and covered payroll for the fiscal year ending June 30th.

The schedules above are intended to show information for ten years and additional years' information will be displayed as it becomes available.

Changes of benefit terms. There were no changes of benefit terms for any participating employer in WRS.

Changes of assumptions. There were no changes in the assumptions.

MADISON AREA TECHNICAL COLLEGE DISTRICT SCHEDULE TO RECONCILE BUDGET (NON-GAAP BUDGETARY) BASIS FINANCIAL STATEMENTS TO BASIC FINANCIAL STATEMENTS Year Ended June 30, 2017

BUDGETS AND BUDGETARY ACCOUNTING

The District follows the procedures listed below in adopting annual budgets for all funds in accordance with legal requirements.

- Property taxes are levied by the various taxing municipalities located primarily in South Central Wisconsin. The District records as revenue its share of the local tax when levied.
- Public hearings are conducted on the proposed budget prior to District Board approval.
- Prior to July 1, the budget is legally enacted through approval by the District Board.
- Budget amendments made during the year are legally authorized. Budget transfers (between funds and functional areas within funds) and changes in budgeted revenues and expenditures (appropriations) require approval by a vote of two-thirds of the entire membership of the Board and require publishing a Class 1 public notice in the District's official newspaper within ten days according to Wisconsin Statutes.
- Management exercises control over budgeted expenditures by fund and function as presented
 in the accompanying financial statements. Expenditures by fund and function may not exceed
 funds available, appropriated, or budgeted. All budget amendments must be authorized by a
 resolution adopted by a vote of two-thirds of the District Board. Appropriations lapse at yearend.

Formal budgetary integration is employed as a planning device for all funds. The District adopts an annual operating budget that is prepared on a different basis from the financial statements, which are prepared in accordance with US GAAP. The budget differs from US GAAP by recognizing encumbrances as expenditures.

(1) State grants revenue is presented on the basic financial statements as follows:

State	
Operating	\$ 4,977,457
Non-operating	 72,221,737
	\$ 77,199,194

(2) Institutional revenue is reported as seven separate line items on the basic financial statements:

Institutional revenue	
Business and industry contract revenue	\$ 2,122,728
School District contract revenue	153,476
Miscellaneous revenue	1,775,781
Gifts, grants and bequest	3,524,425
Cost reimbursements	82,491
Investment income earned	 544,505
	\$ 8,203,406

STATISTICAL SECTION

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health. The information was prepared by the District and was not subject to audit by the independent certified public accounting firm.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement 34 for the fiscal year ended June 30, 2000; schedules presenting information prepared on an accrual basis include information beginning in that year.

Column Headings: The columns headed "Year" in this section refer to the District's fiscal year (July 1 to June 30). Certain data included in this section is only available on a calendar-year basis; and if calendar-year data is presented, it is disclosed in the notes to the specific statement or schedule included in this section.

MADISON AREA TECHNICAL COLLEGE DISTRICT SCHEDULE TO RECONCILE BUDGET (NON-GAAP BUDGETARY) BASIS FINANCIAL STATEMENTS TO BASIC FINANCIAL STATEMENTS Year Ended June 30, 2017

(3) Interest expense is reported as a component of physical plant on the budgetary statements:

Interest expense	
Physical plant	\$ 10,796,326
Interest expense	 4,940,565
	\$ 15,736,891

(4) Reconciliation of budgetary basis fund balance and net position as presented in the basic financial statements:

Budgetary Basis fund balance	\$ 82,464,641
General capital assets capitalized	\$ 406,123,473
Accumulated depreciation on general capital assets	(157,607,079)
General obligation notes payable	(171,125,000)
Premiums on notes payable	(8,368,585)
Capital lease obligation	(44,417)
Compensated absences	(16,172,416)
Accrued interest on bonds	(1,923,118)
Summer school tuition earned	969,403
Summer school instructor wages paid	(707,724)
Encumbrances outstanding at year-end	9,697,953
Net Pension obligations	15,887,430
Net OPEB obligations	 (1,562,288)
Net position per basic financial statements	\$ 157,632,273

Notes: (1) The District is comprised of almost all of five (5) counties (Columbia, Dane, Jefferson, Marquette, and Sauk) and parts of seven (7) other counties (Adams, Dodge, Green, Iowa, Juneau, Richland, and Rock). Real property values are presented for Columbia, Dane, Jefferson, Marquette, and Sauk counties. These five counties comprise over 96% of the District's total equalized valuation. Therefore, the above total column will be greater than the actual total equalized value for the District.

⁽²⁾ Due to varying assessment policies in the municipalities contained in the District, the District uses equalized value of taxable property for tax levy purposes. This equalized value of property approximates estimated actual (full) value of taxable property in the State of Wisconsin. The District Equalized Valuation is the equalized value of property, excluding tax incremental financing districts, with the district. Amount shown is for the five counties listed only.

Source: Town, Village, and City Taxes, Wisconsin Department of Revenue, Division of State and Local Finance, Bureau of Local Government Services

Notes:

- (1) The operational property tax includes tax levies for all district funds except the debt service fund. By state statutes, the operational rate may not exceed \$1.50 for fiscal years prior to 2013-2014. Beginning in fiscal year 2013-2014, the mill rate unit was changed to cap operation levy at 2013 levels with increases only allowed for net new construction. For fiscal year 2014-2015, as a result of 2013 the Wisconsin Act 145, the District now receives a greater portion of its non-operating revenue directly from state appropriations in lieu of the operating property tax levy.
- (2) Tax rates shown for overlapping governments are the Full Value Rates Gross. This rate is the total property tax divided by the full value of all taxable general property in the municipality, excluding tax incremental financing (TIF) districts. Total property tax includes state taxes and special charges on counties and tax districts, state trust fund loans, general county and county special purpose taxes, local taxes, county special charges, special purpose district taxes, and school taxes (elementary, secondary, and technical college). It reflects the amount of surplus funds applied (if any) by a tax district to reduce any of the above apportionments or charges. It does not include special assessments and charges to individuals, delinquent taxes, omitted taxes, forest crop taxes, managed forest land taxes, or occupational taxes.

Tax Levies, Rates, and Collections

Personal property taxes, special assessments, special charges, and special taxes must be paid to the town, city or village treasurer in full by January 31. Real property taxes may be paid in full by January 31, or in two equal installments payable by January 31 and July 31. Municipalities also have the option of adopting payment plans which allow taxpayers to pay their real property taxes and special assessments in three or more installments, provided that the first installment is paid by January 31, one-half of the taxes are paid by April 30, and the remainder is paid by July 31. Amounts paid on or before January 31 are paid to the town, city or village treasurer. Amounts paid after January 31 are paid to the county treasurer unless the municipality has authorized payment in three or more installments; in which case payment is made to the town, city or village treasurer. Any amounts paid after July 31 are paid to the county treasurer.

For municipalities which have not adopted an installment payment plan, the town, city or village treasurer settles with other taxing jurisdictions for collections through the preceding month on January 15 and February 20. For municipalities which have adopted an installment payment plan, the town, city or village treasurer settles with other taxing jurisdictions for collections through the preceding month on January 15, February 15, and the 15th day of each month following a month in which an installment payment is due. On or before August 20, the county treasurer must settle in full with the underlying taxing districts for all real property taxes and special taxes. The county board may authorize its county treasurer to also settle in full with the underlying taxing districts for all special assessments and special charges. The county may then recover any tax delinquencies by enforcing the lien on the property, retaining any penalties or interest on the delinquencies for which it has settled. Since, in practice, all delinquent real estate taxes are withheld from the county's share of taxes, the district receives 100 percent of the real estate taxes it levies.

2017	3,335	4,588	712	167	461	9,262	69	9,331

Notes:

- (a) Student enrollment represents the unduplicated count of citizens enrolled in District courses. A student may be enrolled in more than one program, but is counted only once in the Grand Total. Therefore, the Grand Total column does not equal the sum of the individual programs.
- (b) A full-time equivalent (FTE) is basically equal to 30 annual student credits based on a mathematical calculation, which varies somewhat by program and which is subject to state approval and audit of student and course data.

2014-15

2015-16

2016-17

Fees for instructional materials consumed by students and instructors are required by s.38.24(1)(c), Wisconsin Statutes. These material fees are to be charged to <u>all</u> students on a uniform basis unless exempted by state statute, administrative code, or State Board action. There are material fee categories ranging from \$4.50 per credit to \$70 per credit. Courses are assigned to one of the material fee categories based on the amount of instructional materials required for the course. The minimum fee that is to be charged for any non-exempt enrollment is \$4.50, regardless of the credit value.

125.85

128.40

130.35

Supplemental Fee

A supplemental fee is charged to all students enrolling in post-high school courses at Madison campus locations. This fee is charged per s.38.14(9), Wisconsin Statutes and provides access to the MATC Fitness Center and supports co-curricular activities and programming, including student newspapers, athletics, performing arts, Student Senate, leadership programs, clubs and associations, the Programs and Activities Council, and the Student Life Office. The fee was set at \$10.80 per credit for all semesters. For Regional Campuses, the fee is \$3.25 per credit for Fall and Spring semesters.

There is also a \$46.00 transportation supplemental fee charged to students taking at least one degree class at a Madison location during the Fall/Spring semesters to cover the costs of the Madison Bus and Paratransit program. The fee for the Summer semester is \$26.00.

Academic Achievement Fee

This \$1.30 per credit fee is charged for degree credit classes only. Fees provide expanded service hours, personnel and self-service and online resources that support academic success at all campuses.

Online Course Fee

All online (internet-based) classes include a \$10 per credit fee.

*In 2009-10, the Non-Aidable rate changed from 62 and over to 60 and over for discounted rate

Notes:

(1) The total per credit cost requires adding the resident fee to out-of-state tuition. In addition, out-of-state tuition excludes those students covered by reciprocal agreements.

Notes

- (1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses located in the District boundaries. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
- (2) The percentage of overlapping debt applicable to the District is the equalized property value of property of the overlapping government located in the District as a percentage of total equalized value of all property for the overlapping government.

⁽¹⁾ Rank among 16 WTCS districts. (#1 is the lowest)

⁽²⁾ Not yet available.

⁽³⁾ For purposes of this computation, operational expenditures is based on the budgetary expenditures from the District's General and Special Revenue-Aidable funds. The State removes payments for prior service costs to the Wisconsin Retirement System. There are also various other adjustments that the State makes for this computation which are immaterial and not considered here.

Note: The District rents additional space in public school buildings and other facilities to provide instruction.

⁽¹⁾ With renovations during FY17, District Administration was annexed to the Main Building on Truax Campus.

SINGLE AUDIT SECTION

Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) mandates independent financial and compliance audits of the federal award programs. The State of Wisconsin also stipulates that grantees who are required to have a federal single audit completed must include selected state award programs in the scope of the single audit. In addition to the required auditors' reports, the schedule of expenditures of federal and state awards and accompanying notes and schedule of findings and questioned costs are provided to support the requirements for compliance with Uniform Guidance and State of Wisconsin Single Audit Guidelines. The schedules provide more detailed financial information related to grant activity and other revenue.

LEGAL DESCRIPTION

Columbia County less the portion of the School District of Markesan; Dane County less the portion of the Barneveld School District and the Pecatonica Area School District; Jefferson County less the portion of the Oconomowoc Area School District, the Palmyra-Eagle Area School District and the School District of Kettle Moraine; Marquette County less the portion of the School District of Princeton and the School District of Markesan; Sauk County less the portion of the School District of Hillsboro, the School District of Ithaca and the School District of Weston; plus the portion of the School District of Wisconsin Dells in Adams County; the Columbus School District, the Randolph School District, the Waterloo School District and the Watertown Unified School District in Dodge County; the School District of Belleville, the School District of New Glarus and the Oregon School District in Green County; the Wisconsin Heights School District, the Mount Horeb Area School District and the River Valley School District in Iowa County; the School District of Reedsburg, the School District of Wisconsin Dells and the School District of Wonewoc and Union Center in Juneau County; the River Valley School District and the School District of Wonewoc and Union Center in Richland County; and the Oregon School District and the Stoughton Area School District in Rock County.

Finding 2016-002

This finding was resolved in the current year.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

District Board Madison Area Technical College District Madison, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Madison Area Technical College District, as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise Madison Area Technical College District's basic financial statements, and have issued our report thereon dated December 6, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Madison Area Technical College District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Madison Area Technical College District's internal control. Accordingly, we do not express an opinion on the effectiveness of Madison Area Technical College District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Madison Area Technical College District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND WISCONSIN STATE SINGLE AUDIT GUIDELINES

District Board Madison Area Technical College District Madison, Wisconsin

Report on Compliance for Each Major Federal and State Program

We have audited Madison Area Technical College District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *State Single Audit Guidelines* that could have a direct and material effect on each of Madison Area Technical College District's major federal and major state programs for the year ended June 30, 2017. Madison Area Technical College District's major federal and major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Madison Area Technical College District's major federal and major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the *State Single Audit Guidelines (Guidelines)*. Those standards, the Uniform Guidance and the Guidelines require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or major state program occurred. An audit includes examining, on a test basis, evidence about Madison Area Technical College District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and major state program. However, our audit does not provide a legal determination of Madison Area Technical College District's compliance.

Opinion on Each Major Federal and Major State Program

In our opinion, Madison Area Technical College District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and major state programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of Madison Area Technical College District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Madison Area Technical College District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal or major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and major state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and State Single Audit Guidelines, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Madison Area Technical College District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and State Single Audit Guidelines. Accordingly, this report is not suitable for any other purpose.
